<b>20 Litre plastic drums @</b>	<b>\$ 319.00</b>	<b>\$ 264.00</b>

**Above prices inclusive of GST**  
**Delivery charge Australia wide \$22.00**

“Add-A-Grip” is a simple to apply and a cost effective safety product which will increase the slip resistance on vinyl & timber floor surfaces. Not suitable for steps & stairways. To apply dilute with 10 parts of clean water and mop over floor surface or simply add to the cleaners cleaning solution bucket ( 1part : 10 parts). It may be necessary on the first application to apply 2 coats. Allow the first coat to dry before applying second coat. Once the floor is dry an anti-slip grip film is left on the surfaces making the floor much safer to walk upon. If a satisfactory grip is not achieved then the sealer under should be removed. Although you cannot see the film one can certainly feel the difference. Maintenance: Continue mopping in the normal way, however because on-going washing will slowly remove the film Add-A-Grip needs to be re-applied approximately every 6 – 8 cleans.  
5 Litres of product when diluted will cover approx 800 Square metres.
