

AUSTRALIAN MADE

# deck tread

**SELF ADHESIVE ANTI-SLIP PADS**

Deck Tread anti-slip pads provide extra anti-slip protection. Made from a tough-wearing combination mixture of cork and rubber. Deck Tread's diamond shaped studs improve surface friction that provides safety underfoot in wet and dry conditions.

**Ideal for:**

- boat decking
- stairways
- pontoon decking
- and wherever a sure footing is required.

Diamond studs are a sailor's best friend

- The lower level drains water away
- The diamond studs help grab your feet or shoes.

**Technical information:**

*Dimension specifications:*

Available in pad size 125mm x 290mm and in 42mm x 1.800mm strips

Thickness: 3.0mm
